Technical Evaluation for Supply of Integrated Motor Units and Accessories

Date: 20.06.2025

Reference: RFB No. AGIHF/RFB/SUPPLY/2025-26/002 dated 16.05.2025

Online bids were invited in a two-bid system vide tender RFB No. AGIHF/RFB/SUPPLY/2025-26/002 dated 16.05.2025 from eligible firms/ manufacturers for supply of Integrated Motor Units and Accessories to Assam Government-IITG Healthcare Foundation (AGIHF) through advertisement in the online e-Tender portal (i.e., <https://assamtenders.gov.in>), national/regional newspapers, and AGIHF website.

Based on the terms and condition of the RFB, applications were received from the following two (2) bidders:

1. Daimer Industrial Solution
2. NJD Traders

Following committee was approved by the Chief Operating Officer, AGIHF for evaluation of the tender.

1. Mr. Rajendra Bokil, Chief Financial Officer, AGIHF - Chairman
2. Mr. Saurabhjit Uzir, Head Procurement, AGIHF
3. Mr Shashank Sharma, Director Roboss PTE.LTD, Project Partner
4. Mr. Raktim Jyoti Bora, Project Engineer, AGIHF

During the preliminary evaluations as regards to eligibility criteria, it was found that Daimer Industrial Solution have missed to upload a few historical documents.

Given that there are only two participants in the aforesaid RFB, the committee recommended that the shortfall documents are asked from Daimer Industrial Solution in the e-tender portal. Thereafter the shortfall documents were asked in e-tender portal with document submission date starting on 13.06.2025 (6.00 PM) and ending on 18.06.2025 (12.00PM) with adequate time to reply.

Post receipt of the documents, the committee proceed with the technical evaluation and found Daimer Industrial Solution to be technically qualified.

NJD Solution had submitted the compliance of technical specification for one item only against the thirteen items put in the RFB.

It is to be noted that the BoQ put in the RFB was item rate and not item wise rate. It was a clear expectation that bidders were to quote for all the items together. As such the bid submitted by NJD Solution was technically disqualified. The complete technical evaluation is attached as Annexure A.
